

From Yellowknife
to the Diamond Mines,
Blackmer keeps this
Ice Road Trucker
rolling!

Allen Scraba
Owner
ARS Truck & Welding
Edmonton, Alberta

**"The cold, hard fact is, on the ice road,
nothing beats a Blackmer pump!"**

TX Series
Sliding Vane Pump

When Your Margin For Error Is As Thin As Ice...

It's Good To Know Blackmer Pumps Won't Leave You Out In The Cold.

For more than 20 years, Allen Scraba, owner of ARS Truck & Welding in Edmonton, Alberta, has been sending his fleet of diesel-laden transport trucks over the treacherous, 220-mile stretch of the Contwoyto ice road near the Arctic Circle. Round-trip missions take 36 hours in temperatures that can plummet to 60° below zero (-51°C), conditions that destroy anything but the toughest equipment.

So when it comes to the pumps on his rigs, for the past 20 years, Allen Scraba has relied exclusively on Blackmer TX Series sliding vane pumps. Rugged. Durable. Dependable. TX Series Sliding Vane Pumps offer:

- The ability to operate in achingly cold Arctic conditions
- Long life and trouble-free operation
- Unbeatable suction and line-stripping capabilities
- Fast and quiet operation

So when the lakes freeze over and the trucks start running, Allen Scraba has only one demand...
