

## Video Highlights Blackmer® Experiences At 2010 ILTA International Operating Conference

Blackmer® recently participated in the ILTA (International Liquid Terminals Association) 30th Annual International Operating Conference & Trade Show in Houston, Texas, USA. ILTA represents companies that operate bulk liquid-storage terminals in 47 countries. The ILTA Show is an opportunity for the members of this global community to meet and discuss all of the latest developments in terminal operations.

For those that weren't able to attend the ILTA Show and would like to see a brief overview, Blackmer has created a short video titled "If You Couldn't Come To It...It'll Come To You," which can be accessed by [CLICKING HERE](#).

Liquid terminals are a key market for the reliability, efficiency and energy savings benefits of Blackmer pumps and compressors. The show was very successful for Blackmer with many attendees stopping by the Company's booth to get more information on the various pump technologies on display. At this particular tradeshow, Blackmer joined forces with OPW Engineered Systems (part of Dover's OPW Fluid Transfer Group) to showcase both our companies' products and services.

Blackmer's presence at the ILTA Show demonstrates its commitment to the Liquid Terminals market. As a reminder, many of Blackmer's Liquid Terminals Attack-A-Market Program materials are available on our Web site. Distributors can also access a database that includes terminal customers in your area. Please be sure to visit the Liquid Terminals section of the Blackmer Web site by [CLICKING HERE](#).

Respectfully,
